KISHORE G

Coimbatore, India | +91 6379435894 | Kishore08052003@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Full Stack Developer with expertise in React.js, Next.js, React Native, Node.js, and Firebase. Experienced in building SaaS platforms, AI-based inspection systems, OAuth 2.0 authentication, and cloud deployment. Skilled in AI integrations using OpenAI API and ONNX-based computer vision.

TECHNICAL SKILLS

Languages: Java, JavaScript,

Frontend: React.js, Next.js, React Native **| State Management:** Redux

Backend: Node.js, Express.js

Databases: Firebase, MongoDB,Supabase

AI/ML: OpenCV, Yolo,N8N,OpenAI API

Cloud: Firebase, Google Cloud Functions

PROFESSIONAL EXPERIENCE

Zoryboard Software Solutions Pvt Ltd — Full Stack Developer **Mar 2025 – Present**

- Developed AI-based Window Analyzer with React Native, Python, OpenCV, and ONNX for automated defect detection.
- Built a full-stack matrimony platform enabling user registration, profile creation, and matchmaking based on preferences.
- Contributed to BizReview AI SaaS platform; debugged OAuth 2.0 token lifecycle and implemented secure token handling.
- Enhanced Firebase Cloud Functions authentication logic, Firestore data structuring, and OpenAI API integration.

Brillium Tech Solutions Pvt Ltd —Full Stack Developer Intern **Oct 2024 – Jan 2025**

- Developed responsive React.js frontend components for enterprise applications with optimized performance.

PROJECTS

Window Analyzer – AI Quality Inspection | React Native, Python, OpenCV, ONNX / GitHub

- Built AI-based window inspection system using ONNX + OpenCV, reducing manual inspection time by 40%
- Implemented object detection pipeline (YOLO + OpenCV preprocessing) for identifying defects, sealant gaps, tilt, and visual damage.
- Developed mobile inference workflow using React Native + Android (Kotlin) for real-time camera-based analysis.

MediCompanion — Medication Tracking App | Next.js, TypeScript, Supabase, Tailwind CSS | GitHub | Live

- Built a full-stack medication tracking app with dual-role system (Patient & Caretaker) using Supabase Auth, Zod validation, input sanitization, and TypeScript strict typing with real-time missed-dose detection and automated caretaker email alerts. .

Matrimony Web Platform | React.js, Firebase, Firestore, Node.js

- Developed full-stack matchmaking platform with real-time Firestore data handling , dynamic dashboards and secure authentication using Firebase Auth and managed real-time user data with Firestore. Developed dynamic dashboards for users and admins with features like interest requests, profile verification, and match suggestions.

EDUCATION

Sri Krishna College of Technology, Coimbatore | Bachelor of Engineering – Electronics and Communication | **CGPA: 7.77** | July 2020 – May 2024
